TO BE OR NOT TO BE

Is the All Absorbing Question With Secretary Foster.

MONEY AT 2 OR LOWER PER CENT

The Government in a Position to Force the Bankers to Take Bonds at Whatever Rate of Interest It Sees Fit—The Present Financial Situation—Other Dispatches from Washington.

WASHINGTON, June 9.—Secretary Foster said yesterday afternoon that he had not yet determined what to do about the four-and-one-half per cent. bonds. The New York bankers insisted that if the bonds were extended at a lower rate of interest than 2 per cent. they would lose money. At the same time they admitted that the government was in a position to force them to take the bonds at whatever rate of interest it saw fit to allow.

Many offers were being received, he said, from western banks, to extend the bonds at any rate of interest the secretary of the treasury chose to fix, and "I have no doubt," said Secretary Foster, "that the western banks would extend their holdings of 4 1/2 per cent. without any interest." The secretary here picked up a statement showing that four-and-one-half per cent. bonds held by National banks to secure circulation, and government deposits were distributed as follows: New England states, \$3,743,350; middle states, \$5,695,400; southern states, \$3,447,300; western states, \$13,784,900.

"The western banks," continued Secretary Foster, "receive as high as 8 or 10 per cent. for money, while 6 per cent. is the ruling rate in the east. The western banks could perhaps better afford to have their holdings of four-and-one-half per cent. bonds extended at 1 per cent. than the eastern banks could at 2 per cent. interest. These latter banks," he said, "argued that a rate of less than 2 per cent. would reduce the bonds to par or a fraction below, and when they reached that point the bonds would be presented to the treasury for payment and would have to be redeemed, of course, at par. 'I think, myself,' said Secretary Foster, 'that it would be well to have the bonds command a premium in the market.'"

Then again, continued Secretary Foster, these eastern banks offer to take all the four-and-one-half per cent. bonds not now held by National banks—some \$25,000,000—the circulation to that extent. This is a consideration not to be overlooked, and especially in view of the heavy export of gold to Europe, of course, reduces the circulation considerably.

It was gathered from all that the western banks would take all of the four-and-one-half per cent. bonds at 1 or 1 1/2 per cent. he would let them have them; if not, rather than force the eastern banks to take less than 2 per cent., he was inclined to extend them at that rate, provided they would take them all, and increase their circulation to the extent of the amount of four-and-one-half per cent. bonds now held by holders other than banks, which at the best estimate is about \$25,000,000.

The Papers Do Not Prove It.

WASHINGTON, June 8.—Referring to the published statement that, during the time he was a United States senator, President Harrison exercised his influence to have the pension allowed which was the other day granted to Mrs. Elizabeth L. S. Harrison, his brother's widow, Pension Commissioner Ramm said yesterday: "An examination of the papers in the case, and inquiry among those who have had charge of it for years, fail to disclose any intercession whatever by General, Senator or President Harrison, or by anyone representing him. The case was never disallowed. The truth is Mr. Harrison never made any request, at any time, in any form, affecting the pension which has been granted his brother's widow, and knew nothing about the status of the case at the time the pension was allowed. It went through on its merits alone."

Work in the Pension Office.

WASHINGTON, June 9.—The commissioner of pensions is making arrangements to further facilitate the issuing of pensions certificates, and expects in a short time to issue 400 more certificates daily than is now being done. During the commissioner's incumbency the number of cases awaiting investigation by special examiners in the field has been reduced from 14,225 to 2,556, and consequently about forty special examiners now in the field will be called in. Gen. Ramm said yesterday that with the addition of more clerks he expects to make a better record this year than ever before.

Chili Will Be Well Represented.

WASHINGTON, June 9.—The Latin-American department of the world's Columbian exposition has received a cablegram from Lient Hartow, special commissioner, in which he announces that the government of Chili has accepted the invitation to participate in the exposition at Chicago, and that commissioners will be appointed at once. Chili will erect her own building at Chicago, and has asked that one acre of space be reserved for her. The government will send a military band, and will make an appropriation of \$100,000 to pay the preliminary expenses.

Vessel and Cargo Surrendered.

WASHINGTON, June 9.—Nothing has been received at the navy department to confirm the dispatch from Iquique stating that the Itata had landed her arms and ammunition before surrendering. On the other hand it is believed that the insurgents have acted in good faith and delivered the vessel and her cargo.

Claims the Credit.

WASHINGTON, June 9.—Capt. Slamin, of the revenue cutter Crawford, reports

to the treasury department that on Friday night last, near New Point Bar, Va., his vessel pulled the American schooner Calvert off the bar, saving her, in his opinion, from destruction. As it was the ship sustained little or no damage.

Conscience Contributions.

WASHINGTON, June 9.—A conscience contribution of \$2,000 was yesterday received at the treasury department from New York. It was forwarded through Riggs & Company, and was simply signed by the sender "Relieved."

Free of Duty.

WASHINGTON, June 9.—The treasury department has decided that railway cars running in the transit trade between the United States and Canada are not subject to duty.

MORE CABINET RUMORS.

Said That It Will Be Reconstructed After the Fall Elections.

New York, June 9.—A special to The Recorder from Washington says it is stated by a Vermont Republican, who was formerly clerk of a prominent committee of the house that Secretary Foster would retire after the fall elections and that Mr. Harrison's cabinet would be reconstructed. Mr. Blaine, Mr. Tracy and Mr. Foster would retain their present positions, Mr. Miller would go on the bench and Mr. Noble would be provided with a foreign mission. The reconstruction of the cabinet would be made, he said, by and between Secretaries Blaine, Foster and Tracy, and the president himself, with the object of promoting Mr. Harrison's election. All stories, he said, as to who would be selected for cabinet vacancies were merely conjectural, as no person had yet been selected or even discussed.

WILL INVEST HALF A MILLION.

Largest Pulp Mill in the World to Be Erected at Niagara.

SUSPENSION BRIDGE, N. Y., June 9.—Steps are being taken by a number of capitalists from the west to build here the largest pulp and paper manufacturing establishment in the world. Gen. Sooy Smith, of Chicago, was here last week to examine the ground preparatory to drawing plans for the buildings. Gen. Smith said that John L. Newton, of Chicago, is at the head of the company, and Mr. Hall, of Sault Ste. Marie, who owns the largest and finest spruce forest in America, is a member. The company intend putting in a plant that will cost \$500,000. The company has leased sixteen acres of land from the Niagara Tunnel company. The spruce wood will be brought from Michigan by water, and ample docks and water basins are also to be built for its reception.

In Behalf of a Murderer.

COLUMBUS, O., June 9.—In the supreme court yesterday a motion for leave to file a petition in error in the case of Charles Craig, the murderer under sentence of death, was made. Accompanying the motion were the affidavits of Dr. J. A. Ward, the penitentiary physician, and D. W. Stansell and James Whalen, guards at the annex, detailing the actions of Craig on several occasions when he had attacks of fits. Dr. Henry McDowell, of Cincinnati, Ky., makes affidavit that Craig's father was subject to epileptic fits. At one time Craig made a vicious attack on Ed. McCarthy and Stanley Jones, condemned murderers in the annex of the penitentiary and afterwards fell to the floor exhausted. The plan is to prove that Craig, on account of epilepsy, was irresponsible.

Death of a Noted Physician.

FRANKLIN, Ind., June 9.—Dr. John Hopkins Donnell died yesterday of paralysis. Dr. Donnell was born in Kentucky, July 8, 1818, removing to Indiana in 1821 with his father. In 1836, when 18 years of age, he began the study of medicine with Dr. James Parmer, of St. Omer. He located permanently at Franklin in 1841, and until a few years ago practiced constantly. He was married Sept. 1, 1842, his wife dying of paralysis Dec. 21, 1886. The deceased was a charter member of Franklin Lodge I. O. O. F., Judge F. M. Finch, of Indianapolis, being the only charter member now living. The funeral of the deceased will occur from the Presbyterian church at Franklin on Wednesday at 1:30.

Murder Instead of Suicide.

ELK CREEK, Neb., June 9.—The supposed suicide of W. H. Watson, of this city, May 30, was the result of the arrest yesterday of S. R. Clark, a prominent young lawyer, on the charge of murder. The two were room-mates. Watson was found dead with his pistol near him. There was no suspicion of foul play, and a verdict of suicide was rendered. Later the body was examined and the two wounds on the head of the dead man, supposed to represent the places of ingress and egress of one bullet, proved to have been separate wounds. Two bullets were removed from the head. The revolver found at his side had only one empty chamber.

Injured in a Cave-In.

SAN FRANCISCO, June 9.—An immense cave-in occurred yesterday at the Waterloo mine, severely injuring two men, and either crushing or imprisoning a third. Ed. Moran and Thomas Elster, who were in the main tunnel, first heard ominous creaking among timbers overhead and called to James McGowan, who was wheeling ore into a chute further in. A moment more and the timbers crashed together, letting down a great mass of earth. Moran and Elster were hurled against the side of the tunnel. They managed to crawl to the outside, but nothing is known of McGowan.

UPRISING IN HAYTI.

An Account of the Recent Outbreak.

PRESIDENT'S PROCLAMATION.

Hippolyte Issues Two State Papers on the Subject—Leaders of the Revolt Beheaded—The Followers to Be Tried for Treason.

New York, June 9.—Copies of the proclamations and address of President Hippolyte, of Hayti, regarding the recent revolution in the unhappy island, were received here yesterday. In the first of these issues, on May 28, Hippolyte says: "The enemies of order have dared to raise their hands to-day. At 9 o'clock some brigands, led by the infamous Gen. Sully Gurrier, invaded a part of the prison and have liberated the prisoners. These being organized under the direction of Gen. Badier, have marched on the arsenals and the other military positions of the city, but the forces of the government, although surprised, have repulsed them vigorously. Everywhere we are now master of the situation."

In the other proclamation, issued May 31, he says he has captured Sully Gurrier at Mornes-a-Tuf, in company of one of his principal accomplices, an officer named Francois Gratia, and others. Sully Gurrier and Francois Gratia, the most culpable of all, have paid by their heads the penalty for their criminal enterprises. The others have been confined in the prison of this city to be delivered to their natural judges.

Immediately after the uprising the congress was called together and Hippolyte made an address to the chamber of senators and the deputies in lieu of the customary message.

National Military Tournament.

INDIANAPOLIS, June 9.—The list of entries for the National military tournament to be held here in July, has closed with forty companies on the list. Of these twenty-eight are infantry organizations, six zouaves and six artillery. This is said to be a larger number than has ever participated in a National encampment. In addition there are a number of conditional entries that will probably swell the total to fifty. Capt. Curtis is in receipt of a letter from Adj. Gen. Mabry, of Texas, turning over to the management the Galveston Semi-Centennial Champion Cup, presented by the Galveston Exhibition association in 1889. This cup was won by the Belknap Rifles, who yield it up to be offered at this tournament. The winner becomes the champion company of the United States. Gen. Mabry will probably bring the cup in person, as he announces his intention of being present at the tournament.

Bank Bookkeeper Defaults.

NASHVILLE, June 9.—W. E. Minchin, individual bookkeeper at the American National bank is a defaulter to that institution to the extent of about \$16,000 or \$17,000. Minchin has been in the employ of the bank for the past six years, and until very recently had the confidence of the officers of the bank. He is 35 years of age, a native of Nashville, is of an old and highly respected family. His friends are distressed and surprised at his action, as he was generally a favorite and popular man in the community.

Faced Death Rather Than Dishonor.

MILWAUKEE, June 9.—The dead body of Fred Goss, aged 25 years, was found in the town of Lake yesterday with a bullet through his head. Goss was a collector for the Oberman Brewing company. Last week it was discovered that he was short in his accounts, and a quiet investigation was started. Goss learned of this and failed to appear at the brewery on Friday. The amount of his pecuniations is not yet known, but it is believed to be quite large.

Ada Vernon Suicides.

DENVER, June 9.—Ada Vernon, whose record is pretty well known in Boston and other eastern cities, killed herself yesterday. She first came into prominence in the west as the companion of Maxwell, whose murder of Peller made a sensation on both sides the Atlantic. After Maxwell was hanged she drifted to Denver, and has been living with a well known politician for more than a year. A quarrel with her lover was the cause of the suicide.

A Fatal Train Blot.

LOUISVILLE, June 9.—The Louisville and Nashville train, which brought a colored excursion from Lexington, was the scene of a killing and almost a riot, caused by the conductor, William Wikler, shooting a colored tourist, upon which his friends immediately rallied and drove the train men into the baggage car, but were then held back until the train arrived here. The conductor has been released on bail.

Through an Open Hatchway.

CINCINNATI, June 9.—Michael Burns, a laborer employed in the remodeling of the building at 214 West Fourth street, fell down an open hatchway from the third story to the cellar and was probably fatally injured. Two ribs in his right side were broken, and it is thought that he is hurt internally. He is aged about 40, and his home is at 29 Carr street. He was taken to the Betts street hospital.

Progress of the Elliott Trial.

COLUMBUS, O., June 9.—The testimony in the Elliott trial yesterday was altogether corroborative, and no new facts bearing upon the crime were elicited. Two more witnesses testified that Elliott had threatened prior to the shooting, that in case Osborne or Levering published anything derogatory to his wife and family he would kill them. Their testimony was unshaken by rigid cross-examination. Elliott's family was in court for the first time, and his wife and five children occupied seats near the prisoner and his attorneys.

PRINTERS MEETING.

Annual Session of the International Typographical Union in Boston.

Boston, June 9.—The Thirty-ninth annual session of the International Typographical union was begun yesterday in Faneuil hall. Governor Russell delivered an address of welcome. Edward T. Plank, of Indianapolis, president of the union, presided and delivered the annual address in which he spoke of the union as in a prosperous condition and advised submitting the nine-hour day question to a popular vote of the members. A struggle for shorter hours should not be begun without full preparation. The address stated that the drafts on the defence fund had been very heavy during the year—the number of lock-outs, strikes, etc., having been large.

The treasurer's report showed receipts of \$63,483, and expenditures of \$3,800 over receipts. The cash balance is \$23,300.

The committee's report on law gave rise to a long debate and its consideration was postponed until Thursday morning. One recommendation is that 33 1/3 per cent. of the capitalization tax be held in reserve for a burial fund; the sum of \$50 to be paid for burial expenses on the death of a member in good standing. The committee reports unfavorably upon suggestions that unions comprising 300 or more members may adopt such methods in ordering strikes as in their judgment seem best.

A report on the copyright law was presented and referred to the committee on miscellaneous business.

Congratulations were sent to the Amalgamated Association of Iron and Steel Workers of North America, now in session in Pittsburgh, and a message of sympathy was sent to the widow of Sir John Macdonald, of Canada.

Weavers Strike.

PHILADELPHIA, June 9.—Five hundred looms are idle and over 200 weavers and piece workers of the A. Campbell Manufacturing Company's Union mills are out on a strike. Yesterday morning the weavers employed by Crenshaw & Lesser, the tenants, waited upon Mr. Crenshaw and demanded that he discharge Albert Ackerson, cloth boss, stating that if their demand was not complied with they would go out on a strike. This was not done, and the committee were informed that the weavers would be given until Wednesday to return to their work, if not the mills in Manayunk would close down.

Collision at a Crossing.

CHICAGO, June 9.—While a Wabash Avenue grip train was crossing the Illinois Central railroad tracks at Sixteenth street yesterday evening an Illinois Central train, which had been standing a short distance from the street car tracks, suddenly backed down, crashing into the last car of the grip train and almost completely wrecking it. The twenty passengers in the car, half of whom were women, miraculously escaped unhurt. The accident was caused by the gates at the crossing being raised before the grip train was clear of the Illinois Central tracks.

Labor Leaders Threatened With Death.

SCOTTDALE, June 9.—Master Workman Wise and Secretary Parker, active leaders in the coke strike, declare that threats have recently been made against their lives by Pinkerton detectives. Parker says he was deliberately shot at Saturday night near Wheeler. The two labor leaders are discussing the advisability of hiring officers to investigate the matter.

Wholesale Arrests.

NEWCASTLE, Pa., June 9.—The wholesale arrest of twenty suspected thieves was made by the Newcastle police at Lawrenceburg junction yesterday. The men were in camp in the woods, and large quantities of silver and jewelry were found in their possession. All were committed by the mayor as vagrants and professional thieves.

Shot in Ambush.

NASHVILLE, June 9.—B. M. Clark, postmaster at Old Jefferson, Rutherford county, Tenn., was murdered by an unknown person Sunday night who laid in ambush and shot him as he was leaving the house of a young lady on whom he had been enfling. Clark was very popular, and if the murderer is caught he will be lynched.

Our Oldest Paper-Maker.

MANCHESTER, N. H., June 9.—John Hoyt, the well-known paper manufacturer, died here last night, aged 81 years. He was probably the oldest manufacturer of paper in the country, having been in the business from 1825 to 1886, when he retired. He ran paper mills in Cleveland and Castalia, O., for many years, and also at Pepperell.

Tool Sharpeners Quit Work.

CONCORD, N. H., June 9.—All the tool sharpeners employed by the granite manufacturers of this city quit work today because of the refusal of the latter to accede to the men's demands for an increase in wages from 31 to 33 1/2 cents per hour.

Largest on Record.

PITTSBURGH, June 9.—Twelve million bushels of coal passed Davis Island dam yesterday for southern ports. This is the largest shipment of coal on record in a single day from this port.

Seventeen Indictments.

PHILADELPHIA, June 9.—The grand jury late yesterday afternoon found seventeen indictments against Bardsley, city treasurer. The maximum penalty is eighty-five years.

Engineer Killed.

CINCINNATI, June 9.—Adam Bennett, an engineer on the Big Four road, and living at Harrison, was instantly killed at Elizabethtown at 1:20 o'clock yesterday afternoon.

The Itata Will Sail Saturday.

IQUIQUE, June 9.—The Itata will be ready on Saturday to sail for California.

If you wish to know which is the real "people's party" in this country study the figures of last fall's election. Here they are: Democratic vote, 5,042,140; all the other vote, 4,814,748.

JUDGE PIRPLE, of Louisville, has given the new Constitution careful study, and finds "vastly more good in it than evil" and intends voting for it. He says the flaws are such as can be readily remedied.

KENTUCKY grows twenty-three times as much tobacco as Missouri, and yet St. Louis is the greatest tobacco manufacturing center in the world. This should not be the case. The raw article should be converted into plug, twist and fine cut right here in Kentucky.

The opponents of the proposed new Constitution will hold their kickers' meeting at Lexington to-morrow. The Louisville Post has information that free passes have been offered a number of well known gentlemen of that city if they would attend. The opponents are squandering lots of money all in the interest of the "dear people."

Judge Fleming's Opinion.

Hon. W. B. Fleming of Louisville, in speaking of the new Constitution, a few days ago, said: "I like it. I have studied it carefully, and while it contains some things that I would have opposed, yet as a whole I find no sufficient reason to oppose it. The good in it largely overbalances the evil, and I think a man ought to ignore his individual minor preferences and advocate what is evidently the best for the entire State. A great cry has been raised over what is termed the war on corporations in the Constitution. I can't see that it opposes corporations at all. It restricts them and limits their powers, but it does not take from them any rights or principles they ought to possess. It clearly defines their powers and authority, but who can object to that? It is longer than it might have been, perhaps, and contains much that might have been put into the statutes, but that is no fatal objection. The man who lives until he gets everything perfect in this world will die at a very advanced age. That convention was one of the best bodies I ever saw together. They were sober, intelligent, thinking, working men. They went about the making of this Constitution cautiously and studiously, and I believe the result is for the best interests of the whole people of the State."

Foster's Weekly Predictions.

Foster, the St. Joseph Weather seer, says: "In my last letter I gave forecasts of a dangerous storm period covering the time from June 7 to 23 inclusive, stating that this period would contain three principal storm waves, one of which, 7th to 11th, I particularly described. The second of these dangerous storm waves will be due to leave the Pacific coast about the 13th, cross the Rocky-Allegheny valley from the 14th to 16th and reach the Atlantic coast about the 17th. I cannot say which of these three storm waves will be of greatest force, but I am inclined to believe that it will be this one and that its most destructive energy will be expended not far from the center of the Rocky-Allegheny valley and not far from June 15th.

"Following this storm wave the weather will be unusually cool, and in the northern latitude frosts will occur much farther south than is ordinarily the case for this season of the year. The middle part of June will have a few hot days but will average quite cool with no extended hot term. Rainfall will be unevenly distributed with too much in some localities and not enough in others. This concentration of rainfall in particular spots as the storm waves pass across the continent will lead many who do not look beyond what they can see to imagine that no storm wave is passing and that my forecasts have not been verified. Those who read and observe, however, will realize that the regular storm pulsations are about as well timed as a railroad train."

EVANGELIST LARIMORE's meeting at Louisville resulted in 108 additions to the Campbell street Christian Church.

Meeting of Democratic County Executive Committee.

Pursuant to call, the members of the Democratic County Executive Committee convened at office of Chairman Kehoe Monday, June 8, 1891, at 1 o'clock p. m. Secretary Rogers being absent, Mr. W. C. Johnson was appointed Secretary pro tem.

Upon call of precincts, Maysville Nos. 1 and 2, Mayslick, Germantown, Orangeburg, Fern Leaf, Murphysville, Lewisburg and Dover answered present.

On motion, it was ordered that precinct meetings be held in the respective precincts at 2 o'clock p. m., Saturday, July 11, 1891, for the purpose of selecting delegates to attend a delegate convention, to be held at court house, Maysville, Ky., Monday, July 13, 1891, at 2 o'clock p. m., to nominate a Democratic candidate for Representative to be voted for at the approaching August election.

On motion, it was further ordered that each precinct shall be entitled, in said delegate convention, to one vote for every fifty and fraction over twenty-five votes cast for the Hon. Thos. H. Paynter at November election, 1890.

After considerable discussion of the proposition to hereafter allow each candidate his representative strength in all county delegate conventions, it was, by general consent, agreed to postpone action thereon until some future and more largely attended meeting of the committee.

And, upon motion, the meeting then adjourned. J. N. KENOE, Chairman. W. C. JOHNSON, Secretary.

Sales by Master Commissioner Cole.

Master Commissioner Allan D. Cole made several sales yesterday at public auction, in accordance with decrees of the Mason Circuit Court.

In the case of George Burrows, &c., versus Geo. G. Atherton, &c., he sold three pieces of real estate in this city. A double frame dwelling house on south side of Boone street was purchased by the Mason County Building and Saving Association for \$1,300; a lot 60 by 139 feet on West Third street was bought by Mr. Chas. A. Atherton for \$450, and a lot 52½ by 75 feet adjoining the first parcel brought \$300, Mr. George Burrows being the purchaser.

In the case of Herman Ebersole versus Jacob E. Lang, 43½ acres of land on Kenneley's Creek was sold to Mr. Robinson Bradford. It brought \$18.75 an acre.

In the case of A. J. Calvert against J. N. Frazer, &c., a lot in Lewisburg was sold for \$336, J. N. Frazer being the purchaser.

In the case of Annie J. Weedon, &c., versus John H. Wilson's executors, &c., an undivided half interest in lots 168 and 169 in Chester was sold to Rufus W. Dryden, his bid being \$130.

The Weather and Crops.

Following is the weekly crop bulletin of the Kentucky State Weather Service, in co-operation with the United States Signal Service, for the week ending June 6th: "The weather conditions of the past week have been generally favorable to crops in most sections of the State. The temperature was slightly in excess of the normal, and the amount of sunshine received about the average. In some places the rainfall was excessive, and in others none at all was reported. It came in the form of local thunder storms, and the northern and eastern sections appear to have been more favored in this respect than other parts of the country. There is still much complaint of drouth, and its effects are most perceptible upon wheat, oats and meadows. Corn planting is not yet completed, and in sections where no rain has fallen that part of the crop which is in the ground is doing very poorly. Tobacco plants have been set in places where the condition of the soil permitted it, but in other sections this work has not yet commenced. The plants are becoming very large and must be transplanted soon or they will be useless. Fruits of all kinds are reported to be abundant."

Maysville Commandery.

Maysville Commandery No. 10, K. T., now ranks second in the State in point of membership.

Reports at the recent convocation at Frankfort showed that DeMolay, of Louisville, has 287 members and Maysville 200. The net increase in Kentucky last year was 21, and our famous "5-15-22" furnished 27 of that number. Maysville's increase the year before was 35; and for three years in succession now her increase in membership has been larger than that of any other Commandery in the State.

When Maysville Commandery returned from the recent convocation at Frankfort, it "resumed business at the old stand"—its handsome asylum in the Masonic Temple—and initiated five members at the first meeting in the new year.

Whooping Cough.

"We have had an epidemic of whooping cough here, says A. B. Pope, Stewart, Tenn., and Chamberlain's Cough Remedy has been the only medicine that has done any good." There is no danger from whooping cough, when the remedy is freely given. It completely controls the disease. Fifty cent bottles for sale by Power & Reynolds.

Convocation Services.

The meeting of the Covington Convocation of the Diocese of Kentucky will be held in the Church of the Nativity, this city, during the present week, beginning this evening at 8 o'clock. The programme of services as furnished by the Dean, the Rev. Dr. Estill, of Newport, is as follows, subject to necessary changes:

Tuesday evening, a short service, with address by the Rev. R. Dyer, of Paris. Subject: "What is the Church For?"

Wednesday morning at 10:30, Litany and Holy Communion, with address by the Dean.

Wednesday evening at 8 o'clock, short service, followed by address by the Rev. Walter Baker, D. D., of Covington. Subject: "What Are Clergymen For?"

Thursday morning at 10:30, service, followed by sermon by a member of Convocation.

Thursday evening at 8 o'clock, short service, followed by address by the Rev. E. H. Ward, of Lexington. Subject: "Church Work According to Church Law."

Friday, (services to be announced). Address by the Rev. Dr. Pindar, of Cynthiana. Subject: "What is a Christian?"

The public are cordially invited to all these services.

Spasmodic Advertising.

We all recognize that as between the fellow who works "by fits and starts" and the chap who plods along and keeps at it steadily, the plodder gets there every time. The spasmodic fellow may create an occasional impression, but the result of his ritual labors are dissipated in the intervals.

The occasional display of fireworks only serves the purpose of preventing his being forgotten altogether; while the man who works, and keeps working, constantly improves his position and prospects.

So it is with advertising. It is the repeated and the sustained effort that tells. We don't mean the "ad" that is never changed, but the one that is ever changing, but never omitted. The wise advertiser keeps always before the people to whom he desires to sell his wares. When you want to quit doing business stop advertising, or advertise only "once in a while."—Exchange.

Louisville Tobacco Market.

Furnished by Glover & Burrett, proprietors Louisville Tobacco Warehouse.
Sales on our market for the week just closed amount to 3,010 hhds., with receipts for the same period of 2,875 hhds. Sales on our market since January 1st amount to 69,875 hhds. Sales of the crop of 1890 on our market up to this date 45,919 hhds.

The receipts and sales on our market this week are somewhat larger than for several weeks past, and we are able to report that the good to fine grades of burley are selling extremely high. All grades with color are selling well. The market for the common and medium grades was somewhat irregular and a little easier. The reports from the planting of the new crop show that the season for setting have been very partial, some sections having been able to get through planting, while in other localities the growers have not been able to make more than a start.

The following quotations fairly represent our market for new burley tobacco:
Trash, dark or damaged tobacco..... \$2 00@3 50
Colony trash..... 4 00@10 00
Common lugs, not colony..... 4 00@6 00

Weekly Review of Cincinnati Tobacco Market.

The offerings at auction for last week were 1,987 hhds., classed as follows: 547 hhds Mason County (Ky.) District; 518 hhds Pendleton County (Ky.) District; 212 hhds Owen County (Ky.) District; 130 hhds Blue Grass (Ky.) District; 631 hhds Brown County (Ohio) District; 7 hhds Indiana and 12 hhds West Virginia, of which 1,096 hhds were new, against 1,541 hhds the previous week, of which 706 hhds were new, and 1,956 hhds corresponding week last year, of which 1,443 hhds were new.

Total offerings for the year to date, 52,148 hhds., of which 21,796 hhds were new, against 51,757 hhds same time last year, of which 26,321 hhds were new.

Receipts for the week.....1,511

Receipts same week last year.....1,343

The offerings were much larger than during the previous week, and a very marked increase is shown in the receipts. The late rains have been general throughout the tobacco districts, and as there has been a good season for planting the major portion of the crop has been set. The weather has also been favorable for handling, and receipts will now be large for some time, and the offerings correspondingly so. The market throughout the entire week was strong, with an active demand for good and fine leaf, both new and old, manufacturers being spirited bidders and taking all offered at full and satisfactory prices. Medium leaf held in steady request and brought full figures, as did also colony trash and lugs. Common trash, lugs and nondescript grades, while showing a fair demand, do not command the same attention as others, and as a rule prices are low.

COUNTY COURT.

Reports Filed and Other Business Transacted at the Regular June Term.

The regular June term of the Mason County Court was held yesterday, Judge Phister presiding.

The following settlements were ordered recorded:

Patrick Fitzgerald, administrator of Michael Fitzgerald.

G. F. Pollitt, guardian of Emma Williams, now deceased.

John L. Caldwell, guardian of Mary B. Caldwell.

R. T. Terhune, executor of Martha L. Claybrook.

The following settlements were filed and continued for exceptions:

J. D. Peed administrator of J. W. Williams.

John W. Jameson, executor of Catharine Bryant.

James Shackelford, guardian of Carl Courtney.

The last will of Washington Simpson, Jr., was admitted to record. Jacob Simpson qualified as executor under said will, with Louisa Simpson surety. Appraisers: David Hunter, Chas. Hunter and E. L. Belfry.

Annie Suit qualified as guardian of James A. Suit and Carrie L. Suit, with Allen Grover as surety.

An inventory and appraisal of the personal estate of Rachel W. Ray, deceased, and a sale bill of said estate were filed and ordered recorded. The appraisal amounted to \$200.30, the sale bill to \$98.30.

M. D. Farrow, W. W. Worthington and L. H. Mannen filed their commissions and qualified as Justices of the Peace.

The commissioners to make assessment of property along the line of the Shannon and Lowell Turnpike filed their report.

Paul Gettis was tried on a bastardy warrant sued out by Clarissa McLaughlin. The jury found for defendant. The parties live on Cabin Creek.

Inequalities of Taxation.

The Post Thursday spoke of a bank stock that paid 18 per cent. dividend. To-day it receives a communication from a banker declaring that such a statement is misleading, that no bank stock pays more than 6 per cent. on the investment. In other words, the bank stock which pays 18 per cent. is worth \$300 per share. This is true, and it is a clearer demonstration of the present inequalities of taxation than any other point connected with banks. A share of bank stock worth \$300 pays only 75 cents in taxes, or 25 cents for every \$100.

The same \$300 invested in a home would cost in taxes about \$7.50—taking the assessment to be made at cash value and the entire tax rate at \$2.50 (which is the rate in Louisville). This is the chief reason why the new instrument is called the people's Constitution. It does not play any favorites. It does not set apart the moneyed classes as worthy of special benefits. It does not make the poor man pay ten times as much on his home as the rich man does on his bank stock. It places everybody on a par.—Louisville Post.

Here and There.

Mr. and Mrs. John Dersch, of Ironton, are in town visiting relatives.

Colonel Richard Dawson left last evening on a trip to Carrollton, Mo.

Mr. T. C. Campbell has returned from a trip to New York on legal business.

Mrs. Wm. H. Cox and children have gone to Mt. Sterling on a visit to Judge Peters and family.

Mr. Omar Wilson, of the Government Printing office Washington, D. C., is visiting his parents at Aberdeen.

Mr. George H. Martin and bride are expected here to-morrow. The wedding takes place to-day at Lebanon.

Mr. and Mrs. Thomas M. Green left yesterday for Danville to attend the Centre College commencement.

Judge and Mrs. G. S. Wall and daughter, Miss Ethelene, have returned from Edgewood, near Covington, where they were called a few days ago by the death of Mrs. Wall's mother.

River News.

Over 10,000,000 bushels of coal left Pittsburg yesterday.

The Batchelor passed down this morning with a big lot of freight.

The river has been rising steadily for several days and is again at a fine boating stage.

THE RECORD BEATEN.

Yesterday a Red Letter Day in the Revenue Receipts at This Place.

Yesterday was a red letter day in the Internal Revenue office at this place.

The record was beaten, the receipts being the largest, so far as known, in the history of the office.

Stamps to the value of \$16,096.50 were issued by Deputy Collector Wadsworth, and although he was rushed all day long, and had to copy column after column of figures in making out his reports not an error was made.

The big business is due to the fact that a lot of whisky had to be taken out of bond, the bonded period having expired. Poyntz Bros. took out 327 barrels and Mr. Rogers 110 barrels.

The revenue receipts at this place for the first eight days of this month amounted to \$26,407.80, which is as much as the receipts for the entire month of May.

Don't fail to see Mrs. Prather's paintings at Kackley & McDougles, Monday and Tuesday only. Any one desiring to take lessons should not lose this opportunity. All invited to call and inspect the work. 8d2t

At Newport the ministers are taking steps to have a stop put to the indiscriminate way of granting marriage licenses. Any girl over 14 or boy over 16 can get a license there by having any one they may pick up on the street appointed guardian.

A copy of the premium list of the Clark County Fair and Trotting Association has been received. The next meeting will commence Sept. 8th and continue five days. Liberal purses are offered in the speed and other rings, and the association has promise of a good meeting.

Mr. H. C. BOUGHTON, of the C. and O., will soon be promoted to the position of Superintendent of the Cincinnati division and Mr. J. M. Gill will be promoted to a like position on the Huntington division. Mr. Harry Frazier takes the responsible position of Engineer Maintenance of Way of the entire road.

MR. JOHN McDONALD, an old farmer, died early Monday morning at his home near Springdale, after a lingering illness from some disease of the kidneys. He was sixty-seven years of age. The funeral took place this morning at ten o'clock at Stone Lick Church. Deceased was a good citizen, highly esteemed by his neighbors and acquaintances.

STRAWBERRIES are particularly salutary to those of sanguine or bilious temperaments; to phthisical, anemic and rheumatic individuals. Linnaeus considered that by eating strawberries morning and evening attacks of gout might be prevented and rheumatism cured. Strawberries eaten in abundance produce the same effect as Vichy and other mineral waters.—Exchange.

CARDS have been received here announcing the approaching marriage of Miss Mary Evelyn Bidleman, of St. Paul, to Mr. Robert Clark Hine. The nuptials will be solemnized June 18th, at St. John's Church in that city. The bride to be is the lovely niece of Mrs. John C. Lovel, of this city, and during her visits here has won many friends. The groom is a prominent attorney, of St. Paul. The couple will go East on their bridal trip and will probably visit Mr. and Mrs. Lovel on the return trip.

THE Sentinel of Fort Wayne, Ind., says: "On Tuesday evening, June 2, Miss Maggie May Isett was wedded to Mr. Herbert B. Ridgley. The bridegroom is to be congratulated upon having won the heart and hand of such a beautiful and amiable bride. Mr. Ridgley is the manager of the Metropolitan Installment Company."

The groom formerly lived in this county, and is a brother of Mrs. Paul Hoeflich, Mrs. Wilson Hill and Mrs. R. K. Hoeflich, of this city.

The grand jury at Lexington has indicted twenty young men of that city for committing a nuisance by playing base ball on Sunday. The charge is that they "did unlawfully and willfully engage in a game of base ball, at which said game divers persons and great crowds did congregate and engage in loud noises, betting, winning and losing money on said game, to the common nuisance and annoyance of all good citizens of the commonwealth, and especially those living in the neighborhood of the place where said game took place, against the peace and dignity of the commonwealth of Kentucky."

We're All Right.

The following is from the Robertson County Advance: "We are elated at the stand of that sterling Democratic journal, the Maysville BULLETIN, in favor of the new Constitution. Likewise Mr. Gaines' excellent paper, the Commonwealth. If the influence of such papers fails to secure a good majority for it in Mason County we will lose much of our belief in the power of the press as a moulder of public opinion."

BEHRING SEA BILL.

It Passes the British House of Lords

AND IS NOW AN ENGLISH LAW.

Her Majesty's Government Free to Act on the Subject of Arbitration—Canada's Interest in the Measure—The Long Controversy Drawing to a Close—Other Foreign Dispatches.

LONDON, June 9.—In the house of lords yesterday Lord Salisbury, in moving a second reading of the bill relating to Behring sea, made sympathetic reference to the death of Sir John Macdonald. He said the bill was to enable England to be free to act on the subject of arbitration, and provided for giving compensation where there should be any real loss through England's action. The government did not admit liability for the whole compensation. He believed Russia to be favorable to arbitration. The bill was read a second and third time, and passed.

Lord Salisbury said, regarding the Behring sea bill: Canada has consented to an order in council forbidding the killing of seals in Behring sea by British subjects, on two conditions, first, that arbitration shall proceed; second, that compensation shall be paid to the owners of fishing vessels sustaining a loss through the action of the government. Whether the government could persuade Canada to pay a part of the compensation Lord Salisbury did not know, but it was impossible to defer action until that difficulty could be solved. Therefore the government had assumed the liability, which could not be heavy.

Lord Kimberley expressed his satisfaction with the fact that there was every prospect of closing the long controversy with the United States.

Effect of the Earthquake.

ROME, June 9.—A government commission which was promptly dispatched to the districts visited by the earthquake shocks of Sunday have begun their investigations. At Badolcava and Trogiano the situation was found to be such as to compel the commission and condemn three-fourths of the houses which are still left standing. The buildings will, therefore, as soon as workmen can safely approach them, be pulled down. The fearful subterranean rumblings, followed by heavy earthquake shocks, continue, and the alarmed populace have encamped in tents hurriedly pitched in the fields far away from the reach of falling debris. The troops will be ordered to assist in the work of demolishing the dangerous structures should it be found necessary. None of the persons who were injured have died.

Lost at Sea.

MELBOURNE, June 9.—The fears that were entertained that the steamer Taramung, which was employed in the Australian coasting trade, had foundered during a gale while bound from New South Wales, N. S. W., for Melbourne, have been confirmed. There is now no doubt that the steamer is lost, as pieces of the wreckage have drifted ashore in Wreck Bay which show that the Taramung has gone down. The fate of the passengers and crew is unknown.

Band of Assassins Broken Up.

PARIS, June 9.—The court of assizes in the department Du Nord at Douai has just completed the trial of a band of assassins and thieves, composed of a dozen men and women, who have terrorized the country by the commission of a series of murders and innumerable robberies. Two of them were sentenced to death, and the others were condemned to various terms of imprisonment at hard labor.

The Czar Relents.

St. PETERSBURG, June 9.—It being represented to the czar by the Grand Duke Georges that the expulsion of Jews from Moscow was being brutally confined, and that the Jews were not given time to settle up their business, the czar gave orders to the authorities to observe the utmost directing that the expulsions be effected gradually and so as to permit a winding up of affairs.

They Wanted the Arms.

LONDON, June 9.—Advices from Paris state that the agents there of the Chilian insurgent party do not conceal their chagrin at the surrender of the arms and ammunition on board the Itata. Their program was only to surrender the ship after it had got rid of the cargo, which, to the insurgent cause, was invaluable, arms and ammunition for land forces being badly needed.

Praying for the Jews.

LONDON, June 9.—A day of fasting and prayer for intercession against persecution, has been ordered by the rabbis of the principal cities of Russia. It is again rumored that the Hebrew merchants of St. Petersburg will quit the city. Two of these mentioned among the number to leave are M. Poljakoff, the railway king, and M. Bndski, the sugar refiner.

Outrages Against Foreigners.

LONDON, June 9.—Shanghai news is to the effect that outrages against foreigners are reported at Wusich, near Kinkiang. An English missionary and a customs officer have been put to death. The Europeans have appealed for the protection of a war vessel.

The Pope Economizing.

ROME, June 9.—An order has been issued by the pope to dismiss the employees of the department of the Vatican. The functions of this bureau will hereafter be performed by other departments. The pope is making a number of other economical changes.

Quarter of a Million Fire Loss.

GLASGOW, June 9.—Malloch's great glass warehouse, and the ribbon manufactory of Willis & Nelson were destroyed by fire yesterday. The damage will amount to over \$250,000.

Russian Wheat Crop.

St. PETERSBURG, June 9.—It is officially stated that winter wheat is below the average, and there is a large deficit of rice.

POLITICAL SITUATION IN CANADA.

Sir John Thompson Will Probably Succeed the Dead Premier.

OTTAWA, Ont., June 9.—The political situation is beginning to assume definite shape. Sir John Thompson is the almost unanimous selection of the Conservative members of the commons and senate for premier. Hon. Mr. Abbott, who has been urged for the position, has stated that he would only accept it when no other man is possible. The cabinet will be reconstructed, and the strongest men are to be taken from each province. It will, in all probability be composed of Thompson, from Nova Scotia; Foster, from New Brunswick; Chapleau and Langevin, from Quebec and Dalton; McCarthy or Meredith, and Bowell, from Ontario.

Sir John Macdonald's remains lie in the great dining hall at Earscliffe. The casket stands on a pedestal in the center of the room, and all of the appointments are most imposing. Lady Macdonald has somewhat recovered from the prostration consequent upon her husband's death.

The ministers of the late cabinet met yesterday at 10 o'clock, after which they left the council chamber in carriages for Earscliffe to view the remains of the late premier. The cabinet ministers will act as pallbearers at the funeral on Wednesday.

Blue and Gray Reunion.

MONTICELLO, Ill., June 9.—Col. E. T. Lee, manager of the blue and gray reunion at Chicago during the world's fair, has just returned from the south, where his scheme met with hearty approval. Justice Lamar gave it his hearty endorsement, as did many of the southern leaders. The masses of the southern soldiers are heartily in favor of the movement.

Accident to an Aged Couple.

DENVER, June 9.—Yesterday afternoon Mr. and Mrs. Vincent, an old couple, who live on a ranch, while driving on South Broadway were thrown from their carriage by their horse falling down. Both are badly cut about the head and shoulders, and are injured internally. The physicians say they can not recover.

Rioters Fined.

COLUMBUS, Ind., June 9.—Able and Hearty Simons and Charles Gray, of Indianapolis, arrested for rioting on Conductor Harry Smith's train last Saturday night, were brought before Acting Mayor Morgan yesterday and were fined; the first named for intoxication and assault and battery, and the other two for intoxication. The fines were paid and the prisoners were released.

Gibson Goes Free.

CHICAGO, June 9.—Judge Blodgett yesterday quashed the indictment against George J. Gibson, secretary of the whisky trust, charged with conspiracy to destroy the Shufeldt distillery. The decision was on the ground that the case was one for the state and not for the United States courts, in which there is no statute providing a penalty for the crime for which Gibson was indicted.

Train Capturers Jailed.

COLUMBUS, Ind., June 9.—Four more rather sick looking train-breakers were captured on a midnight through train on the Pennsylvania lines at this place Sunday night, and were lodged in jail here. This makes eighteen the company now have in jail here awaiting trial. Of this number the pitcher and umpire of the Journal club at Indianapolis are included.

Judge Saylor Honored.

HUNTINGTON, Ind., June 9.—Judge Henry B. Saylor, of this city, has received official notice of his appointment as a member of the pan-republican congress committee. Judge Saylor was a member of the Forty-third congress, and in 1881 the governor appointed him circuit judge of this judicial district to fill an unexpired term. He was then elected to the judgeship for the period of six years.

Mysterious Poisoning.

TROY, O., June 9.—Emma Dueber died mysteriously in a house of ill-fame and her stomach has been sent to Cincinnati for analysis. It is believed she took a dose of rough on rats and that after physicians had relieved her with a stomach pump she took a second dose. There is some suspicion, however, that the poison was given by another person.

Barn Burning.

LIBERTY, Ind., June 9.—A spell of barn burning has struck this place, three having been destroyed within the corporate limits within two weeks. The last to burn was that of Andrew Snyder yesterday morning about 4 o'clock, together with all his harvest plows, grain, hay and one phaeton buggy. Insured in the Aetna for \$100.

A Successful Cruise.

PROVINCETOWN, Mass., June 9.—The fishing schooner Alice arrived here Saturday night from a twenty months' cruise in African waters for mackerel. The Alice is the pioneer vessel in this fishing, and her cruise is successful. She brings about fifty barrels of mackerel, and had sent home nearly 1,000 barrels.

The Esmeralda Coaling.

PANAMA, June 9.—With the permission of the Colombian government the Esmeralda, the Chilian insurgent cruiser, is receiving about 400 tons of coal, supplied by the Panama railroad to enable it to proceed to Arica. The Esmeralda will probably leave this port about June 10.

A New Fat Cure.

St. Agedore—It is the easiest thing in the world. De Mascus—What, to reduce a man's weight? "Yes, to reduce a man's wait. The one thing needful—always be punctual." —St. Joseph News.

General Greely told a St. Louis reporter a few days ago that he presumed, in spite of the nominal transfer of the weather bureau to the agricultural department on July 1, he would still remain in charge until next winter, as there is some technical question about the president's right to appoint the new superintendent until the senate meets.
